

PBS XML Release Notes

Effective date: 1st September 2015

Release 2

PBS XML Schema version: 2.11.2

Changes from Release 1

1. Magnesium aspartate was inadvertently moved to streamlined and this was reversed. An amendment was also made to the remodelled restriction text.

5146W	magnesium aspartate dihydrate 500 mg (equivalent to 37.4 mg of magnesium) tablet, 50
-------	--

	From	To
Restriction level	Authority required STREAMLINED	Authority required
Restriction number	5254	5435
	5400	5434

The restriction text was also amended by deletion of the following text from both restrictions:

Clinical criteria:

The treatment must be for prophylaxis.

Otherwise the restriction text remains unchanged.

2. Changes to Somatropin listings:

Deletion of following PBS item as it was a duplicate:

10450B	somatropin 1.8 international units (600 microgram) injection [7 x 600 microgram syringes] (& inert substance diluent [7 x 0.25 mL syringes], 1 pack
--------	---

For consistency across all the somatropin PBS items the value for 'Resupply Interval Days' was changed from 20 to 4 for the following PBS items:

10440L	somatropin 30 international units (10 mg) injection [1 x 10 mg vial] (& inert substance diluent [1 x 1 mL syringe], 1 pack
10441M	somatropin 30 international units (10 mg/1.5 mL) injection, 1 x 1.5 mL cartridge
10442N	somatropin 60 international units (20 mg/2.5 mL) injection, 1 x 2.5 mL cartridge
10455G	somatropin 30 international units (10 mg) injection [1 x 10 mg vial] (& inert substance diluent [1 x 1 mL syringe], 1 pack
10458K	somatropin 18 international units (6 mg/1.03 mL) injection, 1 x 1.03 mL cartridge
10462P	somatropin 18 international units (6 mg/1.03 mL) injection, 1 x 1.03 mL cartridge
10481P	somatropin 30 international units (10 mg/1.5 mL) injection, 1 x 1.5 mL cartridge
10483R	somatropin 36 international units (12 mg/1.5 mL) injection, 1 x 1.5 mL cartridge
10495J	somatropin 36 international units (12 mg/1.5 mL) injection, 1 x 1.5 mL cartridge
10497L	somatropin 60 international units (20 mg/2.5 mL) injection, 1 x 2.5 mL cartridge
3388H	somatropin 60 international units (20 mg/2.5 mL) injection, 1 x 2.5 mL cartridge
5822K	somatropin 18 international units (6 mg/1.03 mL) injection, 1 x 1.03 mL cartridge
5824M	somatropin 36 international units (12 mg/1.5 mL) injection, 1 x 1.5 mL cartridge
6310D	somatropin 30 international units (10 mg) injection [1 x 10 mg vial] (& inert

	substance diluent [1 x 1 mL syringe], 1 pack
6311E	somatropin 30 international units (10 mg/1.5 mL) injection, 1 x 1.5 mL cartridge

Prescriber Instruction 15736 has been changed. This affects the following items:

3388H	5822K	5824M	6169Q
6170R	6266T	6295H	6296J
6297K	6310D	6312F	6313G
6314H	6315J	6316K	6317L
6318M	6319N	6329D	6345Y
9585L	9586M	9604L	9628R
5818F	5819G	5820H	6311E
6476W	10446T		

3. The value of the `ext:markup-type` element has been changed from `markup:percent-offset` to `markup:combined`. This is to make the document schema-valid against the v2.11.2 PBS XML Schema.

Changes from August 2015 PBS Schedule

1. This release is valid against version 2.11 of the PBS XML Schema.
2. New markup elements are included for AHI fee.
3. Default dispensing rule is included for all programs.

Known Issues

1. Some changes to Maximum Patient Charge amounts may not be the subject of a `pbs:alteration` element.
