

# PBS XML V3.0 Release Notes

Released	2017-09-28
Publication effective date	2017-11-01
V3 PBS XML Schema version	3.0
V2 PBS XML Schema version	2.12
Down-convert version	2017-09-28-01

## Known Issues

1. A change to a treatment-phase may not result in a change to the corresponding `rwt:circumstance` element.
2. The removal of an `mpp-reference` in an infusible prescribing rule is missing the corresponding `moved` element and previous image.
3. The unit of measure of the `content` element of an MPUU that is associated with an infusible listing is inconsistent with the unit of measure used for the infusible prescribing rule.

## V3.0 PBS XML Changes

1. Fixed incorrect effective date on `moved` elements and elements that are descendants of the `ready-prepared` and `infusible` elements.

## V2 (Down-convert) PBS XML Changes

1. Fixed duplicate notes/cautions in restriction.
2. Fixed alteration to Manner of Administration group membership.
3. Fixed alteration to maximum-quantity/number-repeats.
4. Add `xml:id` attribute to `pbs:administration` in pharmaceutical item.
5. Fixed missing restrictions due to deleted `benefit-type`.
