

PBS XML V3.0 Release Notes (Amended)

1 March 2019 Release 1

Released	2019-02-08
Publication effective date	2019-03-01
Next Expected Release	2019-04-01 Release 1
Date of next release	On schedule
V3 PBS XML Schema version	3.0
V2 PBS XML Schema version	2.12
Down-convert version	2019-02-04-01

Changes Since February 2019 Release

1. New dispensing rules have been added to programs, as detailed below. These changes have been made to bring these programs into alignment with the General (GE) program.

The effective date for these dispensing rules has been set to 2019-02-01, therefore these do not appear to be additions for this schedule. This is due to these dispensing rules having been in effect for the same period as the Community Pharmacy dispensing rule and to maintain consistency with the existing dispensing rule.

Program	Dispensing Rule	Description
R1	rp-s94-private	Private Hospital
R1	rp-s94-public	Public Hospital
PL	rp-s94-private	Private Hospital
PL	rp-s94-public	Public Hospital

Known Issues in V3 PBS XML

2. A change to a treatment-phase may not result in a change to the corresponding `rwt:circumstance` element.
3. The unit of measure of the `content` element of an MPUU that is associated with an infusible listing is inconsistent with the unit of measure used for the infusible prescribing rule.
