

NATIONAL DIABETES SERVICES SCHEME (NDSS)

The National Diabetes Services Scheme (NDSS) is administered on behalf of the Australian Government by Diabetes Australia Ltd under a five year agreement. The Scheme has been running since 1987 and Diabetes Australia Ltd has been the administrator through a series of agreements. The Scheme is managed by the Department through the Access and Systems Branch, Pharmaceutical Benefits Division.

The NDSS provides access to products and services needed for the self-management of diabetes at prices subsidised by the Australian Government. The products include syringes, insulin infusion pump consumables and glucose testing reagents.

The number of persons with diabetes registered with the NDSS increased by 8.35 percent in 2009-2010 compared with a decrease of 3.37 percent for 2008-09.

The reduction in registrants in 2008-09 was due to a number of data cleansing activities conducted by Diabetes Australia Ltd. In particular, data associated with Gestational Diabetes registrants was cleansed to accurately reflect current numbers.

Details of registrant numbers are as follows:
